#### Description

Test Case: **credit card information secure addition on checkout page.**

#### Step-by-step:

1. Add products to checkout
2. Open checkout page
3. Confirm items
4. Add credit card information
5. Check box to save credit card information

Test Case (BDD):

- Given: I go to the checkout page
- When: I add my credit card information
- Then: I should be able to check a box and save that information
